SUMMARY

Full-stack developer with approximately two years of commercial .NET experience across public-sector, financial-services and enterprise web projects. Owned features from requirements through deployment, connecting C# services, SQL data and usable interfaces. Experienced in legacy modernization, API integrations and workflow automation.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core MVC / Web API (.NET 6/8), .NET Framework 4.8 Web API, EF Core / EF6, LINQ, async/await, dependency injection, REST APIs, hosted services

Data: SQL Server, T-SQL, stored procedures, indexing, query optimization

Frontend: JavaScript ES6+, jQuery, AJAX, HTML, CSS, SASS, Bootstrap 5, DataTables, Razor

CMS: Umbraco 13/10/7, Umbraco Forms, uSync, ModelsBuilder, Smidge

Delivery: Azure App Service / Blob Storage / Azure AD, Azure DevOps CI/CD, Git, Docker, Postman, Swagger; AI-assisted development with review and verification

EXPERIENCE

Full Stack Developer - eWave Online | 2024-2026

- Independently developed a client back-office dashboard across SQL, server-side logic, automation and UI. The client wanted to purchase the entire dashboard, although a purchase had not been part of the original plan.
- Rewrote legacy stored procedures dating back to 2013, improved server-side logic, reorganized API calls, automated manual operations, and optimized jobs and migrations.
- Delivered bilingual Hebrew/English production features on Umbraco and ASP.NET platforms, including purchases, certifications, training enrollment, document downloads and search.
- Implemented REST APIs and service-layer business logic using dependency injection and layered patterns. Worked with EF Core / EF6 and investigated data-integrity issues in legacy transaction and bulk-import flows.
- Integrated Tranzila payments, Azure AD identity, training and CRM APIs, Pulseem email/SMS and ReCaptcha, handling authentication, error mapping and data transformation.
- Customized Umbraco templates, Forms, block-list components and content workflows; connected backend services to Razor and dynamic JavaScript interfaces.

EDUCATION

Software Development Program (Full-Stack) - Sela College, Ramat Gan | 2023-2024

MILITARY SERVICE

Noncommissioned Officer, International Cooperation Division, IDF | Apr 2021-Aug 2023

Coordinated international visits and events; prepared briefings and provided live and document translation. Supported translation for Ukrainian refugees through Pikud Haoref in 2022.

LANGUAGES

English & Hebrew: fluent | Ukrainian & Russian: native | German: conversational
